C-Digit Blot Scanner

Model 3600

Bought in: 2017

The LI-COR C-DiGit Chemiluminescence Western Blot Scanner is the perfect integration of quality and price. It offers [chemiluminescent Western blot](#) imaging without film.

The [C-DiGit Scanner](#) helps you develop film-quality images without the hassle and expense of film development. The C-DiGit Scanner is very affordable and, since it does not require film, the C-DiGit Scanner will pay for itself with your savings on film.
